1. Project Overview

Client	Eadie (eadie1989)
Developer / Agency	Digital Heroes
Product	AirTrainr — Athlete & Trainer Marketplace
Platforms	Web App (Website + Admin Panel) + Mobile App
Tech Stack	Next.js / Vercel + Supabase + Stripe / Stripe Connect
Payments	Stripe (athlete bills via 3% fee) + Stripe Connect (trainer payouts — daily)
Live Preview URL	https://air-triner-web.vercel.app/
Domain	GoDaddy — developer access granted
Stripe Access	Developer Console access granted (mabtang1@gmail.com)
Slogan	Athletes Grow Here. Trainers Thrive Here.
Social — Instagram	https://www.instagram.com/airtrainr
Social — Facebook	https://www.facebook.com/share/1CkVaUNrM2/
Social — X (Twitter)	https://x.com/airtrainr

2. Project Background

AirTrainr is a two-sided marketplace platform that connects athletes of all ages and skill levels with verified local sports trainers and coaches. Athletes can discover coaches by sport, location, skill

level, and availability; trainers can build a professional presence, accept bookings, and grow their coaching business — all within one app.

Digital Heroes was engaged to design and build the full platform from scratch, covering the public-facing website, athlete and trainer onboarding flows, booking and session management, payment processing via Stripe, and an admin panel for platform management.

3. Tech Stack

Frontend	Next.js (React) — Vercel deployment
Backend & DB	Supabase (Postgres + Auth + Storage)
Mobile App	Built in parallel with web platform
Payments	Stripe (athlete billing) + Stripe Connect (trainer payouts)
Email Collection	Custom coming-soon page + Supabase database (GoDaddy domain connected)
Admin Panel	Full transaction and athlete management dashboard

4. Athlete Onboarding Flow

Athletes sign up for free and are matched with verified local coaches based on their sport, availability, and goals.

Steps:

1. Create Athlete Profile — enter age, sport, skill level, location, travel radius, and preferred training times (morning / afternoon / evening).
2. Set Training Preferences — choose session type: 1-on-1 or group, skill-specific development, strength & conditioning, pre-season or in-season training.
3. Get Matched With Verified Trainers — AirTrainr recommends trainers by sport, skill level, availability, and distance.
4. Receive Training Offers — trainers send personalized offers including session types, pricing packages, and available time slots.
5. Book a Session — select date, time, training location, and session length. Payment handled securely in-app.
6. Train & Track Progress — rate and review trainers after sessions; view feedback, progress notes, and rebook.
7. Stay Organised — instant notifications, calendar sync, training reminders, and preferred time-of-day matching.

5. Trainer Onboarding Flow

Trainers create a verified professional profile, set their schedule and pricing, and begin receiving matched athlete leads and booking requests.

Steps:

1. Create Trainer Account — full name, profile photo, sports coached, accreditations, coaching style, travel range or facility address, availability, and pricing.
2. Verify Identity & Credentials — upload ID for identity verification, upload certifications (optional, improves profile ranking), confirm Stripe Connect payment setup, and accept the Trainer Agreement & Platform Policies.
3. Set Schedule & Pricing — available days, preferred training times (morning / afternoon / evening), session lengths (30, 45, 60, 90 min), session type (private / semi-private / group), and per-session or bundle pricing.
4. Get Matched With Local Athletes — notifications when new athletes in your area sign up or request coaching, matched by sport, skill level, location, and travel radius.
5. Send Training Offers to Athletes — personalized session offers, intro specials, discounts, flexible time slots, and coaching notes. Option to limit offer to first N athletes (e.g., first 20) — once the cap is reached the offer closes automatically.
6. Manage Bookings — confirm sessions, chat directly in-app, choose location (rink, field, gym, facility), sync to calendar, and receive reminders.
7. Get Paid Automatically — payment processed after session marked complete; payout via Stripe Connect on a daily basis. Full financial tracking and downloadable reports available in dashboard.
8. Build Your Coaching Business — ratings & reviews, in-app analytics, repeat session recommendations, automated rebook reminders, and seasonal promotion tools.

6. Platform Features

6.1 Public Landing Page

- Slogan: "Athletes Grow Here. Trainers Thrive Here."
- Hero headline: "Connecting athletes with trusted local trainers — making it easier than ever to find the right coach, right in your area, and elevate your performance."
- AirTrainr logo applied with matching brand color scheme
- "Sign up as a Trainer" CTA button for trainer registration
- How AirTrainr Works section — 3-step explanation for both Athletes and Trainers (see Section 7)
- AirTrainr Advantage section — 6-point benefit breakdown for athletes (see Section 8)
- Sports category browser — all sports viewable on the landing page without requiring login
- Social media links: Instagram, Facebook, X (Twitter) — linked to AirTrainr's official accounts
- Footer branding: "AirTrainr" (not "AirTrainr Marketplace" or "AirTrainr Industries")
- Coming Soon / Email Capture page for pre-launch signups — connected to Supabase database and GoDaddy domain

6.2 Athlete Features

- Free account creation
- Profile: age, sport, skill level, location, travel radius, preferred training times
- Training preference selection: session type, training focus
- Trainer discovery: search by sport, location, skill level, and availability

- Trainer profiles: view experience, certifications, reviews, specialties, and pricing
- Receive and accept personalized training offers from trainers
- Session booking: date, time, location, session length
- In-app messaging with trainer
- Post-session reviews and star ratings for trainers
- Progress tracking and session history
- Calendar sync and training reminders
- Payment: athlete pays 3% platform fee on top of trainer's billed amount; processed via Stripe

6.3 Trainer Features

- Professional profile page: name, photo, sports, certifications, coaching style, availability, pricing
- Identity and credential verification (ID required; certifications improve search ranking)
- Stripe Connect setup for payment receipt
- Schedule management: available days, times, session lengths, session types
- Athlete matching and discovery notifications
- Proactive offer sending to athletes — with optional cap (e.g., first 20 athletes; offer closes automatically once cap is reached)
- Offer types: personalized sessions, intro specials, discount packages, flexible time slots
- Booking management: confirm, reschedule, cancel
- In-app messaging with athletes
- Location management: rink, field, gym, facility
- Calendar sync and automated session reminders
- Post-session payout via Stripe Connect (daily)
- Analytics dashboard: bookings, earnings, client history
- Downloadable financial reports (accounting / tax)
- Ratings and reviews from athletes
- Automated rebook reminders sent to athletes
- Seasonal promotions: pre-season, tryouts, camps
- Top-Rated badge earned through high reviews and active platform engagement

6.4 Founding 50 Programme

- Special badge displayed on trainer profiles for the first 50 trainers who join
- Founding 50 trainers receive 6 months free subscription (instead of standard 7-day trial)
- Badge and free subscription are manually assigned by the admin — not automatic
- Admin controls who receives Founding 50 status via the admin panel
- Once 50 trainers have been granted Founding 50 status, the offer is closed

6.5 Subscription & Pricing Model

Athlete Account	Free — athletes do not pay a subscription
Athlete Payment Fee	3% platform fee charged on top of each session bill (processed via Stripe)

Trainer — Monthly	$25 / month
Trainer — Annual	$250 / year
Trainer — Trial	7-day free trial for standard sign-ups
Founding 50 Trainers	6 months free (manually granted by admin)
Trainer Payout	Daily payouts via Stripe Connect after sessions are marked complete

6.6 Payment Flow

- Athlete selects a trainer and books a session.
- Athlete is charged the trainer's session fee plus a 3% AirTrainr platform fee via Stripe.
- Payment is held in the platform's Stripe account.
- After the session is marked complete, the trainer's net amount (session fee minus any applicable Stripe fees) is transferred to the trainer's Stripe Connect account on a daily basis.
- Trainers have full transaction history and downloadable reports in their dashboard.

6.7 Admin Panel

- View and manage all athletes on the platform
- View and manage all trainers (including verification status)
- Assign and revoke Founding 50 badges and 6-month free subscriptions
- View all transactions and financial activity
- Platform-wide configuration and management
- Login credentials provided to client

6.8 Ad Space

- Sell advertising space on both the app and website
- Ad placements to be defined (banner ads, featured listings, sponsored search results — to be scoped)
- Revenue stream in addition to platform fees and trainer subscriptions

7. How AirTrainr Works — Landing Page Copy

7.1 For Athletes

1. Search Local Trainers — Enter your sport and location to instantly see qualified trainers in your area, complete with profiles, specialties, and reviews.
2. Choose the Right Coach — Compare experience, pricing, and training styles to find the perfect match for your goals — whether you're improving skills, strength, or overall performance.
3. Connect & Start Training — Message your trainer directly, book sessions, and begin your development journey with personalised coaching that fits your schedule.

7.2 For Trainers

1. Create Your Trainer Profile — Set up your professional page with your experience, certifications, specialties, pricing, and training locations so athletes can easily find you.

2. Get Discovered by Local Athletes — Athletes in your area search for coaches by sport and skill level — your profile appears so the right clients can reach out directly.
3. Connect & Grow Your Business — Message athletes, book sessions, and manage clients all in one place — expanding your reach and building a stronger training business with ease.

8. The AirTrainr Advantage — Landing Page Copy

Why AirTrainr Gives Athletes the Edge:

- Access to the Right Local Coaches — Instantly connected to trainers who specialise in your sport, skill level, and goals. No more guessing or searching endlessly.
- Personalised, High-Quality Training — Every athlete gets coaching tailored specifically to their needs, helping them improve faster and more efficiently.
- Faster Skill Development — With trainers who understand your sport, you learn the right techniques, avoid bad habits, and progress quicker than training alone.
- Real, Verified Trainer Profiles — See experience, certifications, reviews, and specialties so you always choose a coach you can trust.
- Saves Time and Simplifies Training — No more calling around or chasing referrals. Find, compare, and contact trainers in minutes, all in one place.
- Built for Every Athlete — Not Just Pros — Whether you're just starting or chasing the next level, AirTrainr connects you with a coach who fits your journey and pushes you forward.

9. Sports Supported

AirTrainr supports coaches and athletes across a wide range of sports, including:

- Hockey
- Baseball
- Soccer
- Basketball
- Golf
- General Fitness / Personal Training
- Additional sports can be added by the admin via the platform

Sport categories are browsable on the public landing page without requiring a login.

10. UI / UX & Design

- Brand color scheme matched to the AirTrainr logo
- AirTrainr logo applied across the website and app
- Correct spelling enforced throughout: "AirTrainr" (not "Airtrainer", "AirTrainer Industries", or "AirTrainr Marketplace")
- Social media icons linked to official AirTrainr Instagram, Facebook, and X (Twitter) pages
- Login page footer updated: "AirTrainr" only

- "View More Sports" on landing page does not redirect to login — all sports viewable without authentication
- Coming Soon / email capture page redesigned: headline reads "Sign up today for early insights to AirTrainr"
- Mobile app UI developed in parallel with website for consistent experience

11. Future Scope

- Ad space inventory management system (pricing, placements, booking)
- Social media management services (3–5 posts/week on Facebook & Instagram; 1–2 reels/week — client enquired, to be scoped separately)
- Advanced trainer analytics and performance reporting
- In-app group session management
- Referral and affiliate programme
- Push notifications for mobile app
